OVERVIEW

superant is a decentralized community organization established on the blockchain aiming to create a truly decentralized and highly autonomous super community with as many ants. The total circulation is **1000000000000000000**, and the authority is 100% handed over to community players to realize real community autonomy and community consensus. In the future, the community will actively explore and develop ecology in emerging fields such as blockchain, defi, NFT and metauniverse.

INTRODUCTION TO SUPER ANT NFT

According to different dividends, super ants are divided into the following qualities: Super Ant - Male Ant - Worker Ant - Soldier Ant - Amall Ant

UPGRADE OF NFT QUALITY

Upgrading from low-quality NFT to high-quality NFT needs to consume the corresponding low-quality NFT, and there is a probability of failure. The price of NFT is determined by the market. The higher the quality, the higher the value
